1.	In the Selection criteria, Technical capacity of the candidate, point 1, says that "the candidate has completed ... within the 5-year period prior to the closing date of submission of the application ...". Does it mean that projects that are currently on-going are not suitable as references for this prequalification?	Your understanding of selection criteria 21.3 is correct. On-going projects (not finished i.e. where the final report has not been approved) are not suitable for this prequalification.
