### CONTRACTING AUTHORITY'S CLARIFICATIONS

**Technical Assistance to Srbijagas**

**EuropeAid/127787/C/SER/RS**

**Tender no: 07SER01/35/41**

No	Question	Answer
1	The application form stated in Art. 24 is the "b3_applform_en.doc" attached? Pls confirm.	Yes, we do confirm.
2	Are CVs of the people we intend to use on this job or an exhaustive list of experts required at this stage?	At this stage no CV is required.
3	Is a consortium agreement – should we decide to enter into a consortium – required at this stage? If yes, do you require an original or a copy?	Applications being submitted by a consortium (i.e., either a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure) must follow the instructions applicable to the consortium leader and its members.
4	Are agreements (or other documents) for use of resources between affiliated companies required at this stage? If yes, do you require originals or copies?	An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator,

		must respect the same rules of eligibility and notably that of nationality, as the economic operator.
5	TSO prepared to work in competitive (please give us your understanding/example)	System Operator of SRBIAGAS has worked as a state monopoly in limited market with no third party access, eligible consumers and capacity allocation mechanisms. The objective of this project is to assist them to obtain new knowledge, prepare all necessary documents, codes and methodologies to work in competitive market.
6	All necessary codes fully developed and approved (what codes exactly are you referring to?)	a) Transmission Code including Market Code and metering b) Distribution Code including metering
7	New equipment for system and market operations identified and functional design and specifications prepared in a form of tender dossier (please clarify/explain shortly)	The Consultant should assess SRBIAGAS overall needs for new state of the art equipment for gas system operations and gas market operations (SCADA system, metering equipment, software, IT hardware, and staff training related to the operation of the proposed system etc).  The Consultant should prepare functional design of the system including necessary functional/technical specifications for the procurement of all systems and equipment proposed in previous task in a form of tender dossier.
