1	Can you confirm that the on-going projects (projects for which the final report or equivalent has not been approved yet) started no later then 2007, are eligible for this EoI? In that case, would the candidate's proportion refer to whole project duration or only to assignments completed prior to the date of submission of applications?	The on-going projects (projects for which the final report or equivalent has not been approved yet) started no later then 2007 are eligible for this EoI. In that case, the candidate's proportion refers to the whole project duration.
2	Can several assignments within one project/programme/Client be considered as one reference?	Several assignments within one project/programme/Client could be considered as one reference subject to the specific circumstances of the project and/or programme. In the case of a framework contract without contractual value note that only specific contracts corresponding to assignments implemented under such a framework contract are considered as references.
