| No | Question | Answer |
|----|--|--|
| 1. | The contract description names geothermal energy as well as CHP in Serbia as objective. Is CHP potential in this context limited to CHP based on geothermal energy or is it the general CHP potential independent of the energy source? | The details of the project tasks will be given in the Terms of References. CHP potential would be independent of energy source but some focus will be given on the utilisation of bio-mass. |
| 2. | Is there any limitation of CHP plant size intended or will the contract include very small cogeneration units as well as larger plants? | The details of the project tasks will be given in the Terms of References. The focus of the pre-feasibility studies will be on medium and small CHP plant size. |
