Belgrade, 14/07/2010

Ref. (D) 3425 LT/GV

CONTRACTING AUTHORITY'S CLARIFICATIONS No. 2

Promotion of renewable energy sources and energy efficiency

Publication ref.: EuropeAid/129768/C/SER/RS

Tender no: 10SER01/26/21

No	Question	Answer
1.	<p>The tender document mentions potential and pre-feasibility studies for Combined Heat Power (CHP).</p> <p>Is CHP intended for geothermal heat and power or for gas fired heat and power?</p>	<p>The details of the project tasks will be given in the Terms of References.</p> <p>Pre-feasibility studies for CHP would be independent of energy source but some focus will be given on the utilisation of bio-mass.</p>
2.	<p>Is the tender intended for deep geothermal applications, or also for shallow applications, such as heat-cold storage. If there is a limited scope, what is the depth range?</p>	<p>The details of the project tasks will be given in the Terms of References.</p> <p>Pre-feasibility studies don't intend to consider heat-cold storage.</p>
3.	<p>As far as we understood the procurement notice no CVs are requested to validate the professional capacity. The only document that has to be submitted is the filled out standard application form. Is this correct?</p>	<p>No CVs are required at this stage, only standard application form duly filled in.</p>
