No	Question	Answer
1	With respect to Point 21 of the procurement notice could you please clarify if ISPA funds also apply. Since ISPA were the precursor for IPA funds it would from a chronological point of view seem to be relevant to include ISPA funds as they have been used for ESF and SCF programming.	The fields of expertise relevant for the Technical capacity of the candidates include also large (above € 10 million) infrastructure projects in the sectors of transport and environment, including feasibility studies, cost-benefit analysis, environmental impact assessments implemented within the framework of the ISPA programme of the European Union.
